

DSS-NSC AESTHETIC PROCEDURE TRAINING COURSES

Dermatological Society of Singapore - National Skin Centre aesthetic procedure training courses have been designed specifically to help doctors gain confidence and competence in the performance of minimally invasive aesthetic dermatological procedures. The courses cover both the essential theory and clinically relevant practical aspects of the procedures. On successful completion of the course, participants will have a firm understanding of the topics covered and will be awarded a Certificate of Competence (COC) that is recognized by the Ministry of Health, Singapore.
